EXPERIENCE

SDE 2 — **HARNESS** — **Apr 2025 – Present**

Led Platform Quality & Productivity engineering initiatives by Integrating AI-driven automation through Global prompts and the Agents.md framework, which reduced automation effort by 75%. Worked on integrating JaCoCo to measure code coverage for E2E enabling precise coverage tracking and improved test quality metrics. Established a proof of concept for contract testing that enhanced integration reliability and increased deployment frequency. Provided mentorship for Junior engineers, accelerating their onboarding and lowering bug escape rates. Enhanced test frameworks to achieve 89% coverage and reduced mean time to resolution for test failures from 4 hours to less than an hour, Additionally, led the FIPS and FedRAMP compliance sign-off initiative from the quality side, collaborating across teams to secure compliance sign-off and ensuring regulatory delivery for SMP customers.

SDE 1 — **May 2023 – Apr 2025**

Specialized in feature testing using REST Assured, TestNG, Selenium, and Cypress, reducing critical bugs by 45% through meticulous test planning, regression testing, and CFD analysis. Developed a CI pipeline that shortened release cycles from five days to five hours. Optimized cloud infrastructure costs via resource scaling on GCP, AWS, and Azure and implemented secure authentication mechanisms such as SAML and SCIM. Worked cross-functionally to drive timely delivery of robust software releases Resolved critical CFDs enforcing clean code practices and maintaining software quality. Collaborated cross-teams with DevOps, Product management, and engineering teams to ensure timely delivery of high-performance software.

SDET Intern — **Apr 2022 – May 2023**

Worked on delivering a feature from creating test plan to executing them and then adding automation around the feature.
And improved existing framework, REST Assured, API Testing, UI Testing in Selenium, CI/CD Pipeline. Managed Database with Robo3T (MongoDB), GitHub, Kubernetes, Docker, Jira.

SDE Intern — **HIGHRADIUS** — **Jan 2022 - Apr 2022**

Built a Full Stack AI-Enabled B2B Cloud Application (Dashboard), created minimalist UI using React.JS. Engineered and integrated Java backend servlets with MySQL using JDBC, optimizing database queries and decreasing response time by 40%. Developed a Python regression model to analyse customer data, resulting in a 15% increase in customer retention and revenue growth.

EDUCATION

- **B.TECH** in **Computer Science** (Hons.), **Lovely Professional University**, Jalandhar. **CGPA: 8.73** (2019-23)
- **Class XII –** Non-Medical (P.C.M), Army Public School, Ambala Cantt. **Percentage: 87%** (2018-19)
- **Class X –** Central Board of Secondary Education, Army Public School, Faridkot Cantt. **CGPA: 10** (2016-17)

PROJECTS

- **Admin Portal (Harness):** Developed an Admin Portal using **Spring Boot** for account creation, license provisioning, user management, pipeline management, and feature flag control. Integrated **Google OAuth** for authentication. The portal significantly reduced manual workload, saving hours of time for developers and customer success engineers.
- **Open Source:** Contributed to the **Harness Terraform Provider** project, available at GitHub. Enhanced functionalities to improve integration with Harness, optimizing infrastructure as code processes.

TECHNICAL SKILLS

Competitive Programming: CodeForces Max Rating: **1358** (imtechwiz), **CodeChef** Max Rating: **1999** (imtechwiz)
Languages and Frameworks: REST Assured, Spring Boot, Selenium, TestNG, C++, Core Java, Python, MongoDB, React.js, GO.
Tools and OS: VS Code, Git, Linux, AWS, Postman, GCP, Docker, Kubernetes, Terraform & Cypress.

ACHIEVEMENTS

- **Google CodeJam** (2021)**:** Qualified with rank of Global **985** (**Imtechwiz_227**)
- Beta **Microsoft** Learn Student Ambassador
- 2nd Runner Up in AWES **National Quiz (Hyderabad) & AIU National Quiz (Bengaluru)**
- 5th Position in **State Chess Championship** (Haryana 2019)
- Emerged as Star Performer at **Harness** for Q3 (2023 and 2024)

COURSES & CERTIFICATES

- **DS Algorithms** Excellence Certificate in JAVA from Coding Ninjas.
- Core Member (**Google Developers Student Club –** LPU) & Technical Head in (**Coding Ninjas**-LPU)
- Java: **Automated API Testing** with **REST Assured** (**LinkedIn**)

HOBBIES

Chess | Quizzing | Cricket | Trekking.
